## Hot in the City

New York City is a hip paradise filled with fabulous places to stay, but the newest hotel on the block is planning to rock its way into the annals of cool. Located in the heart of Tribeca, the Greenwich Hotel has a rather famous name behind it – Mr Robert de Niro. Designed to resemble a residence instead of yet another boutique hotel, the Greenwich boasts 88 rooms, 13 suites and a 2,500 sq ft penthouse with rooftop hot tub. 377 Greenwich Street, New York; tel: + 212 941 8900; [www.thegreenwichhotel.com](http://www.thegreenwichhotel.com)

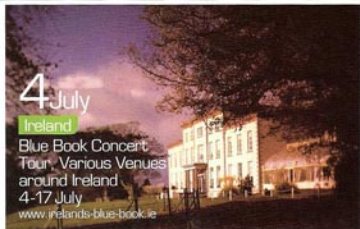

## Castlebar International Walking Festival

3-6 July

## Taking Flight

It's not often you get hotels influenced by aviation but the Cork International Airport Hotel has taken flight with a dramatic modern design. There's a lounge area that looks like the first class section of an aeroplane with vast airline seats, trolleys and television screen, while bedrooms are elegant in cool tones of taupe.
